Pittsburgh Business Times Selects Qrono Inc. for Innovation Award

Inaugural Innovation Awards Honor Companies Disrupting Their Industries

PITTSBURGH (PRWEB) December 5, 2017 – The Pittsburgh Business Times has selected Qrono Inc. for its first annual [Innovation Award](#) based on the company's potential to disrupt the healthcare industry. This award recognizes Qrono for challenging conventional thinking with its new cancer therapies. Unlike traditional therapies that come with whole-body toxicities, Qrono's new therapies are designed to improve patient quality of life through tumor-focused treatment. Qrono and award recipients in other industries will be honored at a ceremony taking place Thursday, December 7, 2017 from 11:00am –1:30pm at The Westin Convention Center in downtown Pittsburgh.

#

About Qrono: Qrono develops unique therapies for the treatment of solid tumors. Qrono's [product pipeline](#) focuses on the unmet medical needs of cancer patients with therapy resistant tumors. The company uses targeting technology to develop localized tumor-focused therapies that can achieve a broad patient impact. Its lead product QR206 is in ongoing Investigational New Drug enabling studies needed for clinical translation. **Qrono media contact: Sam Rothstein, CEO Phone: +1-412-213-8448 Email: srothstein@qrono.com**
